532019 Silencer 50/500

Function

The silencer is used between the Electrical valve and outlet or on the Fan units inlet and exhaust to reduce noise in the outlets.

Technical data

	Static integral attenuation, dB to ISO 7235							
Hz	63	125	250	500	1k	2k	4k	8k
dB	3,9	2,6	8,8	11,1	24,7	36,0	25,5	7,7

Material information

Inner tube:	Perforated aluminum
Inner layer:	Fiber cloth
Insulation:	Mineral wool mat
Outer tube:	Aluminum
End piece:	Aluminum

Mounting instructions

Insert into Ø50 mm pipe system using Ø50 mm Doublecuff (532022).

Maintenance and life time

No regular maintenance required

Dimensions

Dimensions:	Ø108x554 mm (ØxL)
Connections:	Ø50 mm
Weight:	400 g
